About me.

Hi, I'm Evi van der Linden, a 22-year-old Dutch designer. I recently successfully completed my studies in Communication and Multi-Media Design at Hogeschool van Amsterdam with a grade of 9.

I have a strong passion for turning ideas into reality through digital design, and I enjoy exploring new tools that can help me with this process.

Personal Skills.

UX & UI

Design has always been my passion. I enjoy thinking outside the box and developing creative solutions.

I am proficient in conceptualizing ideas and bringing them to life, which includes ideation, sketching, testing, and prototyping.

Graphic Design

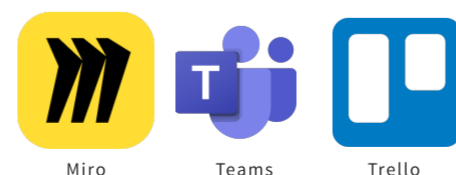

I can create visual identities for any brand, or implement existing corporate identities.

Additionally, I can create various visual elements, including posters, illustrations, icon sets, advertisements, merchandise, etc.

Summary of skills in which I am proficient:

- ux design
- ui design
- illustrating
- prototyping
- graphic design
- branding
- gamification
- conceptualizing

Tools I've learned to master over the years:

Tools I'm still learning about:
